

Xxxxx,

I've loved working with you this semester! I love how you're always smiling and laughing with us as teachers and with the children to help them be excited about toddler lab. I appreciate your willingness to step in and ask what you can do to help. That's been a great blessing on the days where I fall short. I've learned so much from watching you interact with the children and hope to one day be as energetic as you:)

Xxxxx,

I've loved working with you all semester! I love how you always seem so calm, cool, and collected even though I know you get stressed out. I appreciate how willing you are to go the extra mile and get to lab early so that everything will be set up and ready on time. I've learned so much from watching you lead meetings and hope to one day be as smooth and confident in leading a meeting:)

Xxxxx,

I've loved working with you this semester! I love how you're always full of energy and smiles when you greet the children. I appreciate it when you kindly remind me of the little routines in class that I sometimes forget to do. It's been a great blessing to have your quiet reminders to video or start large group. I've learned so much from watching you interact with the children and modeling different activities and hope to one day be as natural at modeling as you:)

Xxxxx,

I've loved working with you in lab this semester! I love how creative you are with activity ideas, specifically art, sensory, and fine motor. I appreciate your sweet spirit and willingness to help others even though I know you have a full load of classes. Your strength to keep going and not let stress overwhelm you is impressive. I've learned so much from you this semester, specifically conducting your large group. It's fun to see how smiley and welcoming you are, and I hope that one day I can be as smooth as you are when running activities:)
