# BYU-Idaho Preschool Lesson Plan Lesson Plan #15 Lab Number #6 Dogs Monday

Date: Monday, June 10th, 2019

Supervisor: Xxxxx

Lead Teacher: Xxxxx Xxxxx, 3<sup>rd</sup> Lesson

# Children Receiving Specific Focus Today:

1. Xxxxx (Outdoor)

- 2. Xxxxx (Sensory)
- 3. Xxxxx (Sensory)
- 4. Xxxxx (Sensory)
- 5. Xxxxx (Creative Art)

#### **Preassessment and Findings:**

I have been able to assess the children and find out what they know about dogs, and some of their misconceptions about dogs. As I assessed Xxxxx I found that he doesn't know where dogs live. But Xxxxx told me that he really likes dogs because they are fun to play with. Xxxxx knows that there are different dogs that he has seen. He doesn't know why they are different, he just knows that they can be different colors and sizes. Xxxxx said that he didn't know why they ate dog food, but that they couldn't have human food. He wants to know more about dogs and why they are different. Xxxxx was at the block area holding a toy dog when I assessed him. I asked him what animal he was holding and he replied, "A dog!" I asked him about where dogs live and he didn't say anything back to me. I don't know if it was because he was unsure or he didn't understand what I was asking. I asked Xxxxx what he thought a dog's purpose was and he said "Fun." Although I didn't get very much out of Xxxxx, he is aware of what a dog is. He will learn more about where dogs live and what they are able to do for humans. As I assessed Xxxxx, I wasn't able to get many words out of her because she was replying in Portuguese. But I did do a few things that let me more aware of what she knows. I held up a dog in the block area and I barked like a dog, she grabbed another dog that was nearby and she barked while holding up the dog. I asked her where a dog lives and she replied back to me in Portuguese. I will be teaching Xxxxx more about where dogs live. She will be able to have a first-hand experience as we bring in my dog. As I assessed Xxxxx, I wasn't able to get any answers out of him since he is mainly nonverbal. But I was able to do a puzzle with him that had a dog on it, and I would point to the dog and say "bark bark" or I would ruff. He didn't make eye contact with me, although I was trying to get him to look at my mouth. Xxxxx was able to tell me many things that she knows about dogs. She told me that she has seen a dog before. She has also gotten to touch a dog before, and it was really big. She told me that she thinks dogs live outside. "But then they would get too cold." Xxxxx told me that dogs live for 5 years. This might be a misconception that could be cleared up.

I want to teaching about what dog's responsibilities are. They each have a role that they play whether it is to help someone, be someone's friend, or work. The children showed a lot of interest when I was talking about dogs. They all seemed to have a positive thing to say about dogs. I will plan to teach them these things as I bring a real dog in and show them what they are able to do. I will show them where my dog sleeps at night and what she does during the day.

#### Ideas to be Emphasized and Overall Developmental Focus:

1. Dogs can live/sleep in different places such as homes, farms/kennels, dog beds, outside.

- Dogs have different jobs such as, house dog/friend, emotional support/ blind, and hunting.
   Today's activities will be focused on fine motor skills, the children will be strengthening their fingers, toes, and hand eye coordination.

# BYU-Idaho Preschool Lesson Plan Lesson Plan #16 Lab 6 Dog care Wednesday

**Date:** June 12, 2019 **Supervisor:** Xxxxx

**Lead Teacher:** Xxxxx Xxxxx, 3<sup>rd</sup> lesson

#### Children Receiving Specific Focus Today:

1. **Xxxxx** (outdoor)

Xxxxx (dramatic play)
 Xxxxx (manipulatives)

4. **Xxxxx** (dramatic play)

5. **Xxxxx** (small group)

6. **Xxxxx** (small group)

#### **Preassessment and Findings:**

From the home visits we discovered that many children are interested in animals. Tallking to parents as well, multiple parents said their children liked dogs. These parents included Xxxxx's, Xxxxx, Xxxxx's and Xxxxx's parents. We have seen this confirmed in lab multiple times. Children have sought out stuffed animals and plastic animals. Specifically, many children have sought after the plastic dogs and moved them across the floor and built houses for them. When talking with Xxxxx, he said that "small dogs are nice, big dogs are scary." When I asked where dogs live, he said, "dogs live on the farm and shoo away the animals." He also said, "dogs bite." Xxxxx also said, "dogs live on the farm." When a child next to Xxxxx said dogs and cats can play together because they are nice, Xxxxx said, "no, dogs and cats are not nice to eachother." Xxxxx recognized the plastic animals and was heard calling them dogs and puppies. Xxxxx said his favorite animal was a dog. When I asked what kind of dogs he said, "black and white." I also talked with XXXXX and asked if he had pets. He said "yes." I said what pets do you have? He said, "everyone." I asked where he got them from. He said "a pet store and they grew." I asked how you take care of pets. He said, "feeding them and teaching them how to do tricks like this." (he jumped off the jumparoo) When I asked, where do doas live. He said, "pens, so they don't crush people." I said I have a dog and he said, "where." I said my house and he said "where."

The Assessment shows that children are interested in dogs and can recognize dogs/puppies. Some children understand that dogs live on farms and that dogs can be bought at the pet store. In addition, children understand that feeding dogs is part of taking care of them. Some things they but don't know include that taking care of dogs involve giving them water, baths, brushing their hair and shots. Another thing the children don't understand is that people can breed dogs and sell them from their home and not just the pet store. Today, children will have the opportunity to learn how to take care of dogs, including feeding, brushing, bathing, and giving them shots. Children will also have the opportunity to learn that dogs can be bought at the pet store but also from people who breed dogs at home.

#### Ideas to be Emphasized and Overall Developmental Focus:

- 1. Dog care includes feeding dogs, giving them water, baths, brushing their hair and taking them to the veterinarian to get shots.
- 2. We can buy dogs from the pet store, but we can also buy dogs from people who breed them at home.

3.	Today the activities will focus on fine motor skills as children use their hands and fingers in multiple ways at different activities.

# BYU-Idaho Preschool Lesson Plan Lesson Plan #17 Lab Number 6 Dog Characteristics/Teaching Dogs Tricks Friday

**Date:** Friday, June 14, 2019

**Supervisor:** XXXXX

Lead Teacher: Becca, 3rd lesson

# Children Receiving Specific Focus Today:

1. **Xxxxx**(Outdoor)

2. **Xxxxx** (Outdoor)

3. **Xxxxx** (Literacy)

4. **Xxxxx** (Outdoor)

5. **Xxxxx** (Science)

6. **Xxxxx**(Blocks)

#### **Preassessment and Findings:**

Throughout the last couple of weeks, the children have shown great interest in animals especially dogs. This was indicated as children such as **Xxxxx** and **Xxxxx** spontaneously playing with dog toys and dog puppets three days in a row. In addition, **Xxxxx** and Xxxxx asked me to read books about dogs with them. Xxxxx spontaneously told me that he loves dogs. While reading with Xxxxx, I asked her to tell me about the dogs in a Clifford book. She said that Clifford was big and that the other dogs where small. I asked her what kinds of dogs she thought they were and she said small and then described them by their colors and whether or not they had spots. I asked her if she knew of anything cool that dogs could do and she said no.

When I asked Xxxxx what she new about dogs she said that they bark and are big. Several children including Xxxxx, Xxxxx, Xxxxx, and Xxxxx said that dogs bark when I asked them what dogs do. While Xxxxx was on the playground, I overheard him talking about how dogs do tricks. When I asked how dogs do tricks he said "they just do them." Later I asked him if dogs need to learn to do tricks he said "no." Later I asked Xxxxx what kind of dog he has and he said a "a big lab one." I have observed that Xxxxx smiles and points to animals both living and toy when he sees them. In addition, his mother told a teacher that he really likes all different kinds of animals including dogs.

After assessing the children, it is evident that the children are interested in dogs and most of them have experiences with dogs. In addition, they understand some of the basic differences in types of dogs such as color and spots or no spots but didn't seem to understand when I called dogs by their breeds (pug, Labrador, St Bernard etc.). In addition, several children didn't know that dogs can do tricks or that dogs need to learn tricks. Today the children will have the opportunity to learn that there are different breeds of dogs and that they need to learn tricks before they can do them. In addition, they will learn that it is easier to train puppies than it is full-grown dogs.

#### Ideas to be Emphasized and Overall Developmental Focus:

- 1. Dogs have different characteristics that makes them unique (neck thickness, long or short hair, leg length).
- 2. People usually teach dogs how to do tricks when they are puppies.
- 3. Today's activities will focus on helping children learn new vocabulary words as they learn about different breeds of dogs and what makes them unique.

Activity Name	Description/Activity Objective	Materials, Special Set-up
*Creative Art: Dog Prints Xxxxx (3)	Activity Description: The children will have the opportunity to use materials in the art area to create dogs, there will be cotton balls, pom poms, and googly eyes that will give their dogs unique characteristics. There will be pictures of dogs around the table that the children can practice drawing. There will also be different houses that they can draw that the dogs will live in. Set the materials around the table. Scatter the materials around the table.  Xxxxx will be interested in this activity because she has an interest in coloring. One of Xxxxx's strengths is fine motor activities.  Child Objective: The children will gain fine motor skills as they practice drawing with various materials. They will be able to use their imagination to draw a dog.  IELG D2 G18: uses various drawing materials (markers, crayons) Intentional Teaching: The teachers should further the children's learning by asking children what parts a dog has. They can do this as children are drawing. They can also explain to children how there are different kinds of breeds of dogs.	Markers (in classroom), Crayons (in classroom), Googly eyes (RR1, Art supplies), Stickers (RR1, cabinet 20, drawer 2), Cotton Balls (RR1, orange, cabinet 1), Pom Poms (RR1, art supplies, 17), Pictures of dogs (IWP)
Language/Literacy Activity: Letter I Spy Becca (3)	Activity Description: Paper towel tubes with letters written on them will be available in the literacy area. Children will match stickers with letters to the corresponding letters on the paper towel tubes and can put them on the tubes. In addition, they will recognize the letters they are familiar with and find them on the paper towel tubes and stickers as well as in books.  This activity will be good for Xxxxx to practice seeing the letter A in words other than her name.  Child Objective: IELG D5 G57: Children will start recognizing letters in their name especially beginning letters as they verbally say the names of the letters they see.	Paper towel tubes with letters written on them (IWP), stickers with letters written on the, (IWP).

	Intentional Teaching: Teachers can say the letter	
	names, sounds, and then point out when they	
	see specific letters in books.	
Manipulatives:	Activity Description: Children will have the	Construction set in
Xxxxx (3)	opportunity to turn screws into different materials	a box (RR1 W#52)
	such as circles and squares.	
	Xxxxx enjoys construction and teachers can	
	encourage him to invite another peer to the	
	activity with him. They can also encourage and	
	help him share materials.	
	Child Objective: Children will use their fine motor	
	skills as they turn screws into circles and squares.	
	IELG D2 G18 Manipulates small objects with ease	
	(strings beads, fits small objects into holes).	
	Intentional Teaching: Teachers can model how to	
	turn the screw into the different holes. Teachers	
	can also encourage and model sharing. T	
Math: Xxxxx	Activity Description: Children will have the	Blocks (classroom)
	opportunity to place different items down a ramp	Plastic car (RR2 B
	to see which goes fastest.	#176)
		Bottle (Beatiful junk)
	This activity can help <b>Xxxxx</b> practice labeling and	Square colored
	simple words such as fast and slow. Teachers can	block (RR2 B #179)
	model and use parallel and child talk.	Nifty system blocks
	Child Objective: Children will explore	(1 circle) RR2
	mathematical principles such as faster and	B#184)
	slower as they put different objects down the	,
	ramp and try different angle lengths and	
	vehicles.	
	Intentional Teaching: Teachers can model putting	
	the items down the ramp and by asking questions	
	about which is faster and slower.	
Science: Becca	Activity Description: The science area will have a	Bug in crystals
@ (3)	collection of furs, and bugs in crystals, that	collection (RR1
	children can examine using magnifying glasses.	P76), animal furs
		(RR1 P87),
	Teachers can invite <b>Xxxxx</b> to the activity and	magnifying glasses
	encourage him to talk by asking him questions	(RR1 P81).
	about what kinds of bugs he sees and what the	
	furs feel and look like.	
	Child Objective: IELG D1 G12: Children will ask	
	why questions as they verbalize hypotheses	
	about animals the furs came from and what kinds	
	of bugs are in the crystals.	
	Intentional Teaching: Teachers can ask questions	
	such as "I wonder what animal this came from"	
	or "why do you think this bug has six legs and that	
	one has eight?"	
Sensory Table:	Activity Description: The sensory table will be filled	Sensory Water
Sensory Marbles	with sensory water marbles. The children will have	Marbles (RR2,
Xxxxx (3)	the opportunity to fill, dump, and scoop using	green, 126),
////// (U)		9,001, 120,

	scoops and buckets.	3 scoops (RR2, green, 120)
	Xxxxx, Xxxxx, and Xxxxx are planned for this	2 buckets (RR2,
	activity. The teachers can use his goal of	green, 120)
	speaking at this activity. By using simple words to	910011, 1207
	describe what they are doing such as dump,	
	pour, down, bounce. We can also use words with	
	Xxxxx such as suave, mole, and cores. Xxxxx will	
	have his own sensory bucket set up so that he	
	can drop certain items in the water. We will work	
	on being consistent with the items he can use in	
	this area.	
	Child Objective: The children will use sensory	
	exploration as they scoop up water marbles and	
	dump them into buckets.	
	IELG D2 G19: Improves hand eye coordination	
	for precise movement (dumping into a bucket).	
	Intentional Teaching: Teachers will ask open	
	ended questions such as "How do the water	
	marbles feel?" to help their sensory exploration.	
	This will help to expand the children's vocabulary.	
*Blocks: Becca	Activity Description: The block area will be set up	Large animal pets
(5)	like a runway for dogs and other animals to have	especially dogs
	a pet show. There will be signs on the wall saying	(RR2 B177), small
	"pet show" and plastic and puppet toy animals	animal pets (RR2
	for children to walk along the runway. In	B177), blocks our
	addition, they can teach the animals tricks for the	classroom, pet
	performance part of the show.	show signs (IWP), 3-
	This activity is planned for <b>Xxxxx</b> . Teachers can	4 red wagons (RR2 B182).
	encourage him to build blocks and work on his	D102).
	goal of interreacting with other children by	
	verbally encouraging them to work together to	
	enact a pet show.	
	Child Objective: IELG D1 G16: Children will use	
	objects such as blocks to represent real items for	
	a pet show.	
	Intentional Teaching: Teachers can use this	
	activity to help emphasize the ITBE's for the week.	
	There are different kinds of dogs and they have	
	specific characteristics, dogs can learn tricks	
	when they are puppies, proper pet care etc. In	
	addition, they can model how to use blocks as	
	items other than blocks.	
Dramatic Play:	Activity Description: Children will have the	Pet Care (RR2 Y
Xxxxx	opportunity to pretend to buy animals at a pet	#247)
	store dramatic play setting, take them home and	Dogs/cats (WR shelf
	take them on walks. There will also be materials	3)
	set up to take care of animals as well.	
	Xxxxx and Xxxxx are interested in animals and	
	dogs. This activity will help Xxxxx to interact with	
	Laogs, mis activity will help Axxxx to interact with	

	peers and work on his speech as he asks and answers questions. This activity will help Xxxxx stay at the activity longer as teachers engage in the pretend play and asks questions. Teachers can help Xxxxx by using parallel, child talk and asking questions to encourage him to use speech. Teachers can model pretend play with the animals and involving Xxxxx to brush an animal or feeding the animals.  Child Objective: Children will use peer interaction as they pretend to buy and sell animals in a pet store setting and share materials.  Intentional Teaching: Teachers can ask questions to extend play such as, "would you like to buy a dog today at the pet store.? Which dog would you like.?"				
<u>Alternatives:</u>		<del>,</del>			
Creative Art: Finger Painting Xxxxx	<b>Description:</b> The children will have the opportunity to explore with finger painting. There will be 3 trays of different colored paints. They will have the option to paint on the art cart, a separate paper (laid out), or they can use it different canvas such as a paper bags.	3 Paint Trays (RR1, Cabinet 19, Drawer 2), Paint (RR1, paint), 10 Paper Bags, (RR1, art supplies 10), 5 Aluminum Foil (RR1, art supplies 18),10 Colored Paper (Art cart)			
2 <sup>nd:</sup> XXXXX	<b>Description:</b> Children will have the opportunity to put together and take apart bend and extend tubes.	Bend and Extend Tubes (RR1 W #49)			
3 <sup>rd</sup> : Becca	<b>Description:</b> Children can connect and build structures with the star builder.	Star Builder(RR1, Manipulative, White, 48)			
ROTATING SNACK 2:00 – 2:30 p.m.  Monday- apples, peanut butter, and water  Wednesday  Friday-Graham crackers and smoothie					
OUTDOOR PLAY 2:00 – 2:45 p.m. Location: North Playground					
*Gross Motor: Building a Dog House Xxxxx	Activity Description: Children will have the opportunity to build a dog house with the building blocks that will be placed outside. They can build it depending on how big of a dog they want to build it for.  Xxxxx is planned for this activity because he has an interest in building things with Legos. Xxxxx can	Large Legos (GG, Shelf 7)			

-	·	
	also work on listening to simple instructions when teachers tell him to do something, this will work towards his goal.  Child Objective: Children will develop their gross motor skills by using their legs and arms while building with the blocks. They will bend down to get the blocks and carry the blocks.  IELG D1 G16: Uses blocks for imaginative settings and extended play.  Intentional Teaching: Teachers can model for the children how they can build a home for a dog. They can use language such as walls, roof, and firm to describe their structures.	
<b>2</b> <sup>nd</sup> : Bubbles Xxxxx	<b>Activity Description:</b> Children will have the opportunity to blow and chase bubbles.	Bubble Machine Bubble wands Bubble solution
	<ul> <li>Xxxxx enjoys bubbles and will be able to engage with peers as she can blows bubbles or can chase after them. Additionally, teachers can encourage Xxxxx to invite another child to blow bubbles with her.</li> <li>Child Objective: Children will use their fine and gross motor skills to blow bubbles and chase after them.</li> <li>IELG D2 G21 Participates in different physical activities (walking, climbing, throwing, dancing) with varying levels of engagement.</li> <li>Intentional Teaching: Teachers can offer prompts to children to invite other peers to the activiity.</li> </ul>	(RR1 C21 Drawer 1)
<b>3<sup>rd</sup>:</b> Car Wash Becca	Activity Description: Buckets of water with sponges will be available next to the trees by the large shed for children to wash ridable cars with. Fill buckets with several inches of water and put a little bit of dish soap in to make bubbles.  Child Objective: IELG D2 G21: Children will have the opportunity to initiate a structured activity as they spontaneously start washing cars.  Intentional Teaching: Teachers can model how to appropriately use sponges to encourage	2 Galvanized tubs (GG Floor near outside wall), dish soap (our classroom)2 ridable cars.
	Xxxxx and Xxxxx to participate and use materials appropriately and work on their goals of sharing and not throwing things.	

Monday

CLEAN UP 2:50 – 3:00 p.m.				
•	ong, all of the children will clean up and the teache	rs will sing. The		
teachers will hand out the colored tags to the children.  Transition to  Teacher will play the song, "How much is that Music (IWP)

CLOSING CIRCLE AGE	have the opportunity to explore play dough. Additionally, children will be given the opportunity to pet and brush a stuffed animal and a real dog.  Xxxxx likes dogs and this will allow her to interact with peers and teachers as she does. Xxxxx also likes dogs and this will allow her to share and take turns petting and brushing the dog  Child Objective: IELG D2 G18 Uses various drawing and art materials (crayons, brushes, finger paints).  Children will use their fine motor skills to pour food and water into bowls and brush a dog.  Intentional Teaching: Teachers can provide a first-hand experience as each child gets a chance to brush a dog. Teachers can also ask questions about how we take care of dogs.	Dog food (IWP) Pitchers (kitchen) Mini pitchers (kitchen) Blankets (RR2 Y) Brush(IWP) playdough (Classroom)
CLOSING CIRCLE 3:25 - Transition to Closing Circle	Baby shark will be played	
06.0	L	
Activity Name	Description	Materials
Movement Activity	Freeze dance	
Phonemic Awareness	"We are going on a lion hunt" story with the children. Children will do movements with the teacher.	
Music Activity or Song or Fingerplay	Baby Shark	
Story (non-book)	Little Red Hen	WR drawer 7
Age Appropriate Game	Sleeping lion- children will pretend to sleep as the hunters come and try to make the lions laugh. If they laugh, then they become hunters as well.	
Other	Row, row, row your boat	
Other	"Who likes rain" story on the felt board.	WR drawer

Your Activity	Description & Objective		Materials			
What's Your Dog? Various Tables around the classroom	Description: The Children will create their own unique breeds of dogs using clay and art supplies such as beads and pompoms. Dog pictures from gathering time will be available for teachers and children to discuss the different characteristics as they create their own dogs.  Child Objective: IELG D4 G46: Children will develop their fine motor skills to mold clay into their own unique dogs or animal of their choice.  Intentional Teaching: Teachers can model how to put materials into the clay and talk about different dog characteristics.  Give Xxxxx clay and show him how to put beads into it.		Clay (IWP), pompoms and yarn (RR1 Cabinet 17), beads and buttons (RR1 cabinet 9), cotton balls (RR1 cabinet 5), muffin tins to put art supplies in (RR1 cabinet 19). CLOSING CIRCLE 3:25 -	3·40 n m					
Transition to Closing Circle						
Activity Name	Description		Materials			
Movement Activity	Children will march to We a	re the Dinosaurs.	Phone with We Are The Dinosaurs			
Phonemic Awareness	Read Brown Bear Brown Bear make the noises the animals		Brown Bear Brown Bear, What do you See By Eric Carle (WR, B C11).			

Music Activity or Song or Fingerplay	We will sing The Wheels on the Bus and do the actions.	None
Story (non-book)	I will tell the story of The Three Pigs.	None
Age Appropriate Game	Charades: I will tell a child what animal they should pretend to be. The other children have to guess which one they are.	None
Other	Bug in a Rug- the teacher will choose a child to be a bug while all of them are hiding their eyes. They will put the blanket over the child and have the rest of the children guess who's the bug.	2 Blankets
Other	The children and will sing and do the actions along to the song Row, Row, Row Your Boat.	None

#### Monday

# WORDS TO SONGS & FINGERPLAYS (must provide):

5 little monsters jumping on the bed, one fell off and bumped his head, mama called the doctor and the doctor said, no more monsters jumping on the bed (repeat until there are no more).

Hey Diddle diddle the cat and the fiddle.

The cow jump over the moon.

The little dog laugh to see such fun and the dish ran away with the spoon.

#### **RESOURCES** (must provide):

Other lesson plans.

# **Materials** (optional):

None

#### Wednesday

#### **WORDS TO SONGS & FINGERPLAYS (must provide):**

For the other teachers so we can all learn about them; also include source (website, book, etc.).

#### **RESOURCES** (must provide):

Where you found your ideas (people, books, websites,)

#### Materials (optional):

If you would like to make a list of the materials you need you can but it is not required.

# Friday

# **WORDS TO SONGS & FINGERPLAYS (must provide):**

I've gotta shake, shake, shake my sillies out

Shake, shake, shake my sillies out

Shake, shake my sillies out

And wiggle my waggles away.
